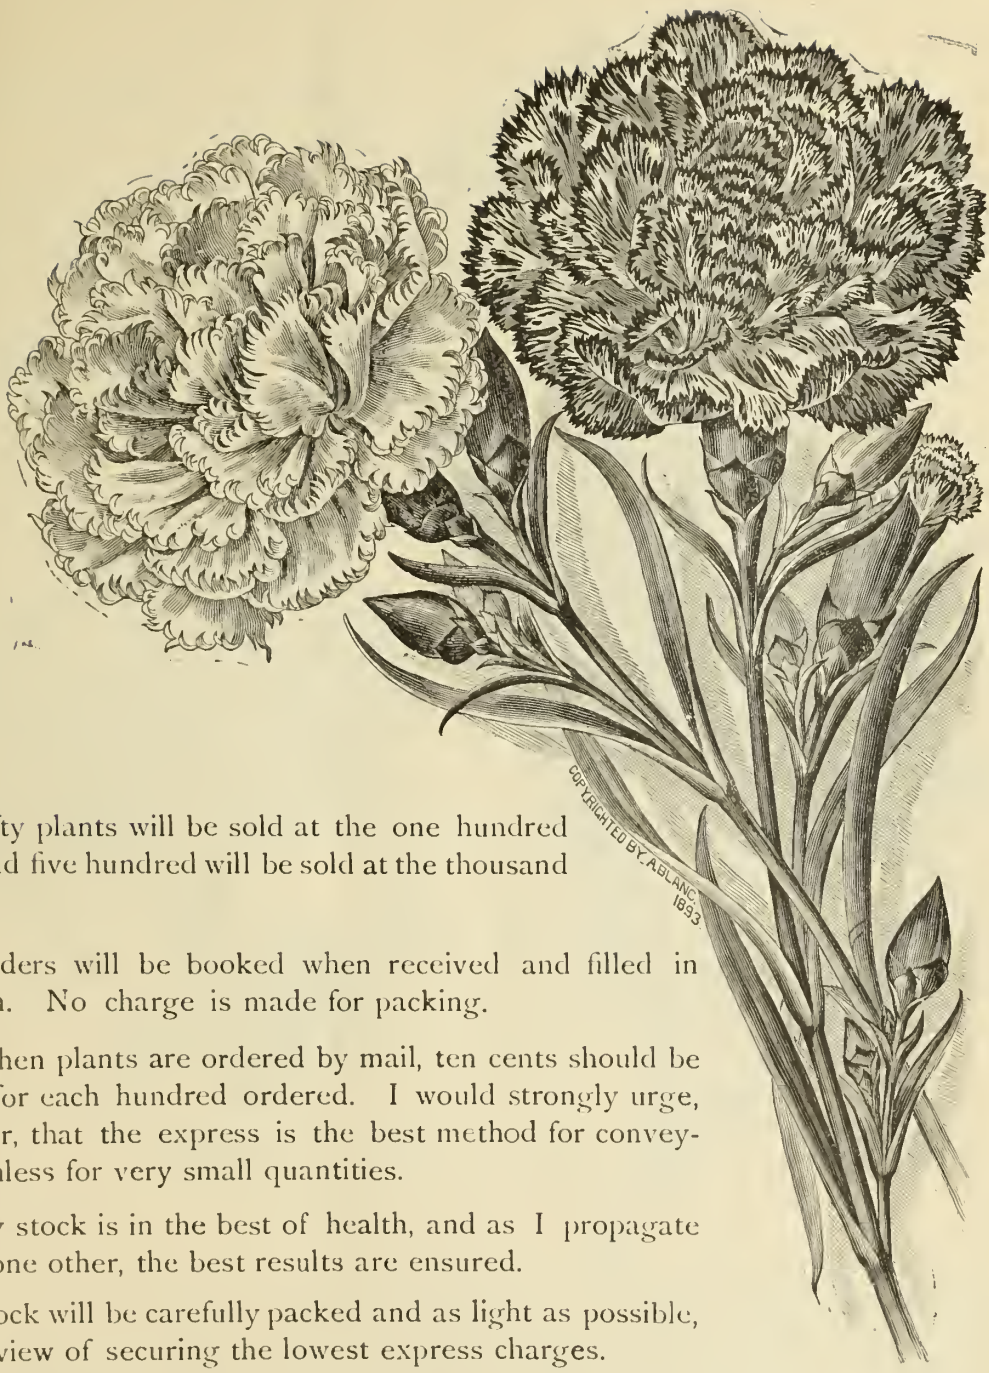
WHOLESALE PRICE LIST OF

Rooted Carnation Cuttings

For the Inter-Season of 1894.

HENRY M. JACKSON,
West Grove,
CHESTER CO., P

ERRORS.—We exercise the utmost care in filling orders, striving to do a little more than we offer, yet in the press of business errors sometimes occur, in which event we wish to be promptly notified of the fact, and will make such corrections as will be satisfactory. Please keep copies of all your orders for comparison.



Fifty plants will be sold at the one hundred rates and five hundred will be sold at the thousand rates.

Orders will be booked when received and filled in rotation. No charge is made for packing.

When plants are ordered by mail, ten cents should be added for each hundred ordered. I would strongly urge, however, that the express is the best method for conveyance unless for very small quantities.

My stock is in the best of health, and as I propagate from none other, the best results are ensured.

Stock will be carefully packed and as light as possible, with a view of securing the lowest express charges.

Please, when ordering, write name and address and all necessary shipping instructions as plainly and fully as possible, also state the express most desirable to send by.

Cash must accompany the order in all cases, unless approved references are given, or satisfactory business relations already exist.
